Years of **consulting as a Software engineer in Fortune Global 500 companies**, complemented with leadership roles and thirst for knowledge, provided me with the full vision of the Application Lifecycle Management, great software engineering skills, leadership techniques and practical knowledge on managing organizational and client requirements.

Project Manager   tretton37
JAN 2019 – PRESENT   Stockholm, Sweden

Project Manager at **Deutsche Bahn**, **Silver Rail** and **ORM UK**, in the mobility industry, working with remote clients, distributed teams and disciplines.

Software engineer, Scrum Master   tretton37
AUG 2016 – JAN 2019   Stockholm, Sweden

Senior consultant at **H&M**, second largest global clothing retailer.

- I created automation tools and implemented a CI/CD pipeline; reducing bugs found by 15% and increasing team performance by 27%
- I created internal tools to automatize the management process for educational budgets
- I raised the team's work forecast accuracy up to 26% by introducing newer tools for traceability and reporting

Software engineer, Scrum Master   ERNI Consulting
JUL 2012 – JUL 2016   Zürich, Switzerland

Senior consultant at **Roche Diagnostics**, Fortune Global 500 company in the health-care sector, pharmaceuticals industry.

- I created automation tools and provided technical guidance to a team of 5, improving their delivery speed by 41%
- I designed an asynchronous loading architecture, increasing application boot up time by 53%
- I created extensible UI controls, allowing reusability of components across teams, effectively increasing their capacity by up to 30%
- I delivered courses on C#, UWP and XAML, enabling clients to expand their businesses into new Windows-based markets

Software engineer   Force Manager
MAR 2012 – JUN 2012   Barcelona, Spain

Software developer responsible for the maintenance and creation of .NET modules for a CRM.

Junior software engineer   STP.Net
JUN 2010 – MAR 2012   Barcelona, Spain

Full-stack software developer creating in-house projects with .NET technologies.
